SUMMARY STAFF RECOMMENDATION**C14-04-0170**

Staff alternatively recommends rezoning from Single Family Residence (SF-3) to Limited Office-Mixed Use (LO-MU-CO) and Community Commercial-Mixed Use Conditional Overlay (GR-MU-CO) with the conditional overlays limiting trips to less than 2000 per day. The applicant has agreed to these conditions.

EXISTING CONDITIONS**Site Characteristics**

The site is a currently undeveloped site zoned SF-3. To the south is commercial frontage along South 1st Street, with GR and LO zoning and single family residences (SF-3) in the rest of the neighborhood. To the east, across the street, is Gillis Park and the South Austin Multi-purpose Center.

(See Exhibit A - Zoning Map and Exhibit B, 2003 Aerial Photograph).

Staff alternatively recommends rezoning from Single Family Residence (SF-3) to Limited Office-Mixed Use (LO-MU-CO) and Community Commercial-Mixed Use Conditional Overlay (GR-MU-CO) with the conditional overlays limiting trips to less than 2000 per day.

The applicant has requested LO zoning to extend the parking area of the church and GR zoning to construct a community center/gymnasium.

Site Plan

There is a site plan currently under review for this property (SP-04-0373C) which provides for the construction of a detention pond to serve the existing use of the church and associated parking.

There is a subdivision currently under review for this property (C8-04-0112.0A), which intends to resubdivide 4 lots, consisting of 3.7 acres.

Compatibility Standards

The site is subject to compatibility standards. Along the south property line, the following standards apply:

- No structure may be built within 25 feet of the property line.
- No structure in excess of two stories or 30 feet in height may be constructed within 50 feet of the property line.
- No structure in excess of three stories or 40 feet in height may be constructed within 100 feet of the property line.
- No parking or driveways are allowed within 25 feet of the property line.

- For a structure more than 100 feet but not more than 300 feet from property zoned SF-5 or more restrictive, 40 feet plus one foot for each 10 feet of distance in excess of 100 feet from the property zoned SF-5 or more restrictive.
- An intensive recreational use, including a swimming pool, tennis court, ball court, or playground, may not be constructed 50 feet or less from adjoining SF-3 property.
- A landscape area at least 15 feet in width is required along the property line if tract is zoned MF-3, MF-4, MF-5, MH, NO, or LO.
- In addition, a fence, berm, or dense vegetation must be provided to screen adjoining properties from views of parking, mechanical equipment, storage, and refuse collection.

Additional design regulations will be enforced at the time a site plan is submitted.

Transportation

No additional right-of-way is needed at this time.

The trip generation under the requested zoning is estimated to 6370 trips per day, assuming that the site develops to the maximum intensity allowed under the zoning classification (without consideration of setbacks, environmental constraints, or other site characteristics).

A traffic impact analysis has been waived as the applicant has agreed to limit trips to less than 2000 per day.

Existing Street Characteristics:

NAME	ROW	PAVEMENT	CLASSIFICATION
South First	70'	60'	Minor Arterial
Herndon Lane	60'	35'	Local

- There are existing sidewalks along S. 1st Street
- Cumberland Road is classified in the Bicycle Plan as a Priority Barrier to Travel Bike Route.
- Capital Metro bus service is available along South First.

Water and Wastewater

The landowner intends to serve the site with City water and wastewater utilities. If water or wastewater utility improvements, or offsite main extension, or system upgrades, or utility relocation, or adjustment are required, the landowner, at own expense, will be responsible for providing. Also, the utility plan must be reviewed and approved by the Austin Water Utility. The plan must be in accordance with the City design criteria and specifications.

The landowner must pay all required water and wastewater utility tap permit, impact, construction inspection, and utility plan review fees.

Environmental

The site is not located over the Edwards Aquifer Recharge Zone. The site is located in the West Bouldin Creek Watershed of the Colorado River Basin, which is classified as an Urban Watershed by Chapter 25-8 of the City's Land Development Code. It is in the Desired Development Zone.

Impervious cover is not limited in this watershed class; therefore the zoning district impervious cover limits will apply.

A minor portion of the site falls within the 100-year floodplain.

At this time, site-specific information is unavailable regarding existing trees and other vegetation, areas of steep slope, or other environmental features such as bluffs, springs, canyon rimrock, caves, sinkholes, and wetlands.

Standard landscaping and tree protection will be required in accordance with LDC 25-2 and 25-8 for all development and/or redevelopment.

Environmental - Stormwater Detention

This site is required to provide on-site structural water quality controls (or payment in lieu of) for all development and/or redevelopment when 5,000 s.f. cumulative is exceeded, and detention for the two-year storm.
